

ICON 70-D DOOR SYSTEM

With 70 mm frame depth
ICON 70 D enables the flush
visible view requested for
projects and inside &
outside opening for all kinds
of doors.

18 mm glass fiber re-enforced polyamide thermal-break and 3 compartmental structure provides high insulation and better system performance. As Euro Groove, it can be used with all opening mechanisms. Emergency exit doors with panic bars, offers an ideal solution for multiple locking building entry-exit doors.

It has a profile wall thickness between 1.6 mm and 2.0 mm, the system allows glass usage up to 36 mm thickness. With flush visible view structure, the system has 70 mm depth for both frame & sash.
